HakeRank
- Frontend Developer (React) 
Certificate
HakeRank

ACHIEVEMENTS

Bravo award
NSEIT
I have received the Bravo Award
for four consecutive months at my
current organization.

Ashutosh Dattatray

Fase

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer proficient in the MERN stack and adept at leveraging Generative AI to accelerate learning of new technologies. Excels in JavaScript programming, server-side API design, and seamless front-end integration using React.js. Strong problem-solving skills enhance project reliability and performance.

WORK EXPERIENCE

NSEIT, Limited

Junior Engineer
March 2022-present

Job responsibilities:

- Developed a React-based application for load pumping for mock trades, showcasing proficiency in React and frontend technologies.
- Integrating CI/CD processes to streamline deployment and reduce manual tasks.
- Provided client support and developed comprehensive documentation to improve user experience and system understanding.
- Automated scripting processes for trade applications in all five segments, improving efficiency and reducing manual effort.
- Managed job scheduling using Control-M, ensuring smooth operation and timely execution of tasks.

PROJECTS

- 1. X Clone** | 
JavaScript | Redux | React | Git | Node.js | Express.js | MongoDB | RESTful APIs | HTML5
 - Developed an X-clone app with the MERN stack, featuring JWT-based authentication, bcrypt-secured passwords, and API routes for user and tweet management. Built a responsive UI with React, used Redux for state management, and ensured secure MongoDB operations.
- 2. Ochi Design Clone** |  | 
JavaScript | HTML5 | Tailwind CSS | React
 - Pixel-perfect replication of Ochi Design website using React and Tailwind CSS.
- 3. Weather App** |  | 
JavaScript | RESTful APIs | HTML5 | CSS3
 - Developed a responsive weather application providing real-time weather information and time.
- 4. Sundown Studios** |  | 
JavaScript | HTML5 | CSS3 | Responsive Web Design | SwiperJs | Locomotive
 - Sundown Studios website with smooth animations, built using HTML, CSS, JavaScript, SwiperJs, and Locomotive.
